

APPLICATION FOR EXTENSION OF **WATER MAINS**  
AND  
CONNECTION INTO CITY **WATER SYSTEM**

TO THE UTILITY BOARD OF THE CITY OF BROOKINGS

The undersigned persons (Applicant) hereby make application for the connection of a proposed water main into the municipal water system of the City of Brookings as required by Brookings Utility Rules and Regulations and respectfully represent as follows:

(1) That the district, subdivision or area of the municipality to be served by such proposed water main is as follows (BMU assigned drawing number) \_\_\_\_\_:

(2) That the size and kind of water pipe proposed to be used in such construction is as follows and that the streets or public ways in which it is proposed to construct and lay said water main and the maximum length of such proposed construction is as follows:

+/- \_\_\_\_\_ feet of \_\_\_\_\_ (size) water main to be constructed in \_\_\_\_\_ (St/Av).

+/- \_\_\_\_\_ feet of \_\_\_\_\_ (size) water main to be constructed in \_\_\_\_\_ (St/Av).

+/- \_\_\_\_\_ feet of \_\_\_\_\_ (size) water main to be constructed in \_\_\_\_\_ (St/Av).

(3) That the point where such water main is proposed to be connected with the municipal system is as follows:

At the intersection of \_\_\_\_\_ & \_\_\_\_\_ in the \_\_\_\_\_ Addition.

At the intersection of \_\_\_\_\_ & \_\_\_\_\_ in the \_\_\_\_\_ Addition.

\_\_\_\_\_, a consulting engineering firm of \_\_\_\_\_ (City, State), will be providing the plans and specifications for this system.

If the Engineer includes Brookings Municipal Utilities standard water main specifications (*in whole, unchanged and is held precedent*) in the Engineers set of specifications, there will be no review fee. If the Engineer elects not to incorporate Brookings Municipal Utilities standard water main specifications in the Engineers specifications, a Five Hundred Dollar (\$500) review fee shall be paid by the Developer before a connection is made with the city water system. All water main designs must be prior approved by Brookings Municipal Utilities before construction commences. Water main extensions shall not be allowed in road right-of-ways which are not final platted. Water services shall be allowed to lots which are not final platted as long as the preliminary plat has been approved. The Developers Engineer must provide adequate staking to ensure all water facilities will be installed correctly before BMU will allow construction. The Developers Engineer shall provide accurate as-constructed plan and profile sheets to BMU in an electronic format (pdf or dwg) prior to the transfer of ownership to BMU.

Further, we hereby agree that upon completion of such project, and upon connection to the municipal water system, and by the execution by the applicant of a Certificate of Substantial Completion and Transfer that the system as constructed shall be owned by the City of Brookings, to be operated as part of the city system in accordance with Brookings Utility Rules and Regulations, and that further extensions by other developers, or tapping for service lines, shall be in the sole prerogative of the City of Brookings Utility Board, or their designee, without the creation of any liability whatsoever on the part of the City of Brookings or any agent therefore in granting application for extensions or tapping as contemplated from time to time by regulation, rules or city ordinances.

I \_\_\_\_\_, Utility Operations Manager of Brookings Municipal Utilities do hereby (approve) (disapprove) the above and foregoing application and make the following recommendations: \_\_\_\_\_

\_\_\_\_\_.

Dated this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_.

\_\_\_\_\_  
Utility Operations Manager
