March 11, 2020

Dear Plumbers/Contractors:

This letter serves to remind you that Brookings Municipal Utilities (BMU) will no longer be providing backflow preventers and meter setters (yokes or horns) for water meters effective July 1, 2015. Plumbers will be responsible for providing this for all new service lines for residences, apartments and businesses.

The following lead free backflow preventers will be allowed (or approved equal):

- Zurn Wilkins – Model 700XL Lead Free
- Watts – Series 7 Dual Check Valves

The meter yoke shall be a copper male by female swivel jointed meter yoke with #2 yoke for a 5/8" x 3/4", a #3 yokes for full 3/4" meters and #4 yoke for a 1" meter. No solder joints will be allowed. All meter yokes brass or bronze parts will be no lead brass.

The following meter yokes will be allowed (or approved equal):

- A.Y. McDonald Manufacturing Company
- Ford Meter Box Company Inc.

Effective March 30th the following prices will be in effect for meters with modules for 2020. Plumbers are required to make application for water meters for new service lines at the Utility Building. We appreciate at least **two days'** notice for installation of new meters.
