This rebate offer is good for purchase of new ENERGY STAR certified products. Restrictions apply. This offer is available to customers of participating municipal electric utilities listed on the back of this form. Equipment must be installed in a residence served by a participating electric utility. **Exterior installations do not qualify.** Equipment must not be used to qualify and receive payment for energy savings from any wholesale electricity market.

Mail completed application and dated sales receipt, to your participating municipal utility, or email to: rebate@brightenergysolutions.com. **Applications must be postmarked within 90 days of purchase.** Incomplete information will delay or disqualify rebate. If you do not receive your rebate within 8 weeks, please call your utility. Utility may inspect to verify installed equipment.

This program is reviewed and authorized each year for rebates available from January 1 through December 31. This rebate offer is available on a first-come, first-served basis, and can be changed or withdrawn at any time without notice. The utilities do not warrant the performance of installed equipment expressly or implicitly. **Rebate will not exceed purchase cost of equipment.** Not responsible for lost, late, or undelivered responses. This form has no cash value. Please retain a copy for your records.

Any use of this rebate or form except as described herein constitutes fraud. Fraudulent submissions could result in federal prosecution under U.S. Mail Fraud Statute (18 U.S. Code, Section 1241 and 1242). Please dispose of used appliances in an environmentally friendly way.
