A Cash Incentive Energy Efficiency Program brought to you by:

IMPORTANT INSTRUCTIONS:

Step 1: Determine Eligibility: Pre-approval is required if the potential incentive is greater than \$20,000. Contact The Utility for pre-approval. See last pages of application for detailed **Terms and Conditions**.

Step 2: Install Equipment. See last pages of application for detailed Terms and Conditions.

Step 3: Complete and Submit Application. A completed application and all required supporting documents must be received by The Utility within 90 days of installation. Incomplete applications will cause delays in payment or denial of the application.

Email the application and supporting documentation to: rebate@brightenergysolutions.com

OR

Mail the application and all supporting documentation to:

Brookings Municipal Utilities 525 Western Ave Brookings SD 57006 Phone: (605) 697-8491

Please note: Brookings Municipal Utilities and its supplemental power supplier, Missouri River Energy Services, are offering this Bright Energy Solutions Program. Brookings Municipal Utilities and Missouri River Energy Services together will be referred to as "The Utility" throughout this document.

Bright

Energy

Solutions*

Saving energy. Saving money.

Please visit **www.brightenergysolutions.com** for more information about the Bright Energy Solutions® Program.

PLEASE ATTACH THE FOLLOWING REQUIRED DOCUMENTS:

- 1. Invoice clearly showing proof of purchase including date purchased, model numbers and cost. If contractor installed, please include installation date, address and total project cost.
 - VFD's used to replace existing or failed VFD's do not qualify for incentives.
 - VFDs must be automatically controlled by a variable signal, and have load diversity that will result in savings through motor speed variation.
 - The motor controlled must be set to operate a minimum of 1500 hours annually to be eligible for incentive. Redundant or backup units do not qualify.
 - This incentive is for VFD's used on process pumps, HVAC pumps and HVAC fans only.
 - * Examples include VFD's used to control the following: HVAC fans, boiler draft fans, cooling tower fans, chilled water distribution pumps, and hot water distribution pumps.
 - <u>HVAC FANS.</u> Incentives for VFD's used to control HVAC fans are only offered for VFD's installed on existing HVAC fans up to 400 horsepower. Incentives are available for retrofits only and are not offered for new construction or new installations.
 - WALL AXIAL FANS. Incentives for VFD's used to control wall axial fans (shuttered wall fans, sidewall prop fans, etc.) used in conditioned spaces are offered for new installations and retrofits.
 - HVAC PUMPS. Incentives for VFD's used to control HVAC pumps are only offered for VFD's installed on existing HVAC equipment and are limited to pumps up to 400 horsepower. Incentives are available for retrofits only and are not offered for new construction or new installations except for pumps < 7.5 HP.
 - PROCESS PUMPS. Incentives for VFD's used to control process pumps are limited to the following horsepower ranges:
 - * For new process pumps only VFD's used to control motors 1 through 50 horsepower are eligible.
 - * For retrofit of existing process pumps only VFD's added to control motors 1 through 400 horsepower are eligible.

*Maximum incentive cannot exceed 75% of the total project cost including installation.

B. High Efficiency Pumps (1 Through 20 HP Only)								
Demon			Horsepower Installed	Incentive	Pump Energy Index (PEI)		Annual	-
Pump Type	Make/Model or Catalog #	Qty		Installed per h	per Horse- power*	PEI of Pump Installed	Minimum Required	Operating Hrs (Minimum 1500)
	Constant Load Pumps							
ESFM				\$11.00		.93	Hrs.	
ESCC				\$11.00		.93	Hrs.	
IL				\$9.00		.94	Hrs.	
RSV				\$20.00		.87	Hrs.	
ST				\$13.00		.92	Hrs.	
Variable Load Pumps								
ESFM				\$31.00		.46	Hrs.	
ESCC				\$22.00		.47	Hrs.	
IL				\$22.00		.48	Hrs.	
RSV				\$25.00		.43	Hrs.	
ST				\$6.00		.55	Hrs.	
Subtotal Section B \$						\$		

ESFM = End Suction, Frame Mounted

ESCC = End Suction, Close Coupled

IL = In-Line

RSV = Radially Split, Multi-state, Vertical in-line Diffuser Casing

ST = Submersible Turbine

PLEASE ATTACH THE FOLLOWING REQUIRED DOCUMENTS:

- 1) Energy Rating (ER) Certificate, if available, this document can be provided by your contractor.
- 2) Invoice clearly showing proof of purchase including date purchased, model numbers, horsepower and cost. If contractor installed, please include installation date, address and total project cost.
- Pump efficiency is based on the Pump Energy Index (PEI) as certified by the Hydraulic Institute for the specific model and load type (constant or variable).
- Pumps must be set to operate a minimum of 1500 hours annually to be eligible.
- Variable load pumps are not eligible for an additional incentive for the variable frequency drive.

^{*}Maximum incentive cannot exceed 75% of the total project cost including installation.

^{**}Pump Efficiency represents the efficiency at the design operating point on the pump curve.

V6.1 2022-1128 5 of 7

ELIGIBILITY:

- These incentives are offered by Missouri River Energy Services and its participating members. For questions regarding eligibility, call the utility listed on the cover page of this application.
- Commercial, industrial, and governmental customers who purchase electricity from The Utility are eligible to participate in the Bright Energy Solutions® VFD and Pump Incentive Program. Eligible equipment must be connected to an electric service billed under a commercial or industrial rate class by The Utility. Excludes equipment for residential spaces such as apartments.
- Customers that self-generate more than 5% of their annual energy needs are not eligible for BES rebates. The Bright Energy Choices green energy program can help customers achieve net-zero carbon or 100% renewable power supply without self-generation. Contact your utility for more information.
- This program is applicable only to equipment that meets the detailed equipment specifications and requirements described in this application. The Utility will determine, in its discretion, whether such specifications and requirements are satisfied.
- Customers may not receive more than one incentive for each piece of equipment installed under this program or any combination of Bright Energy Solutions programs.

TERMS AND CONDITIONS:

- 1. <u>Incentive Offer:</u> Projects, including all required installation, must be completed by December 31 of the year listed on this form. A signed application and itemized invoices for materials and labor must be submitted to the participating utility at the address located on the cover page of this application **within 90 calendar days of project completion.** Please keep a copy for your records.
- 2. <u>Proof of Purchase</u>: This application must have complete information and be submitted with an invoice(s) itemizing the new equipment purchased and labor costs. The invoice(s) must indicate date of purchase, size, type, make, model and total project cost. The AHRI Certificate of Product Ratings must also be provided where applicable and available. In cases where the AHRI Certificate of Product Ratings is not available or applicable the manufacturer (OEM) specification sheets must also be included.

3. Compliance:

- a) All projects must comply with federal, state, and local codes.
- b) All equipment must be new or retrofitted with new components per the program specifications. Used or rebuilt equipment is not eligible for incentives. Existing equipment must be removed and properly disposed of.
- c) Equipment must meet specification requirements and be purchased, installed and operating prior to submitting an incentive application.
- Equipment must not be used to qualify and receive payment for energy savings from any wholesale electricity market.
- e) Customers may only receive one incentive per piece of qualifying equipment.
- f) All projects for which more than \$20,000 in incentive payments is sought must be approved by The Utility prior to the commencement of the project. Receipt of pre-approval does not guarantee incentive payments will be made.
- g) All terms and conditions of this application must be satisfied by the customer.
- 4. <u>Payment:</u> Once completed paperwork is submitted, incentive payments are usually made within 4-8 weeks. Incomplete applications will either delay payments or be denied. The Utility reserves the right to refuse payment and participation if the customer or the customer's contractor violates program rules and procedures.
- 5. <u>Inspection</u>: The Utility may conduct an inspection of the customer's facility to survey any installed projects. All projects exceeding \$10,000 of incentives will be inspected prior to incentive payment. The Utility may inspect customer records relating to incentives sought by the customer.
- 6. <u>Information Sharing</u>: The Utility reserves the right to publicize your participation in this program, unless you specifically request otherwise in writing. Information contained in this application may be shared with state boards, commissions, departments, and other Bright Energy Solutions participating utilities.
- 7. <u>Program Discretion</u>: Incentives are available on a first-come, first-served basis. This program and its incentive amounts are subject to change or termination without notice at the discretion of The Utility. Neither pre-approval of a project, nor any other action by The Utility, will entitle a customer to an incentive payment until the application is finally approved by The Utility. The Utility reserves the right to load manage (cycle on or off) customer equipment that qualifies for incentives under this program.
- 8. <u>Logo Use</u>: Customers or trade allies may not use the name or logo of Bright Energy Solutions, The Utility, or any other participating utility in any marketing, advertising, or promotional material without written permission.

9. Disclaimers: The Utility

- a) does not endorse any particular manufacturer, product, labor or system design by offering these programs;
- b) will not be responsible for any tax liability imposed on the customer as a result of the payment of incentives;
- c) does not expressly or implicitly warrant the installation or performance of installed equipment or any contractor's quality of work (contact the equipment manufacturer or contractor for warranties);
- d) is not responsible for the proper disposal/recycling of any waste generated as a result of this project;
- e) is not liable for any damage, injury, or loss of life arising from or relating to the removal, installation, or operation of any equipment, or any other action taken by the customer or The Utility, in connection with a project undertaken by the customer under the programs described in this application;
- f) does not guarantee that a specific level of energy or cost savings will result from the implementation of energy efficiency measures or the use of products funded under this program.

INCENTIVE LIMIT:

- Eligible customers may purchase and install qualifying equipment and receive an energy efficiency incentive of up to \$100,000 per customer, per calendar year. Payments for larger incentives may be allowed at the discretion of The Utility.
- An incentive exceeding \$20,000 must receive written approval from The Utility BEFORE project commencement.
- Total incentive will not exceed 75 percent of the project cost, including installation. If self-installed, incentives for items of equipment can be up to the purchase price of a specific item, but shall not exceed the Bright Energy Solutions incentives set by Missouri River Energy Services.
- Incentives for particular items of equipment and/or systems are limited as set forth in this application.
