

Charge Faster at Home.

We have rebates up to \$500 for installing Level 2 EV Chargers.

Get Plugged into Big Savings with Bright Energy Solutions®

Amp up your savings with a **Level 2 EV charger**. Thinking about installing an electric vehicle (EV) charger at home? BMU and our power supplier, Missouri River Energy Services (MRES), are here to help you plug in and save on your installation with the Bright Energy Solutions program.

As the popularity of EVs continues to grow, more drivers are taking advantage of faster, more efficient Level 2 chargers, which offer significant time savings compared to standard 120-volt outlets. These 240-volt chargers allow EV owners to charge overnight, wake up to a full battery and hit the road without delay.

Switching to an EV offers a range of benefits:

- Lower fuel and maintenance costs
- Convenient home charging
- Faster charge times with Level 2 chargers
- Reduced emissions and environmental impact

To make the switch even more appealing, BMU is offering generous rebates for home charger installations:

- **\$500 rebate** for installing a ChargePoint Home Flex charger
- **\$150 rebate** for other qualifying Level 2 chargers

A message from BMU
 Executive VP / General Manager
 -Steve Meyer

As the sun shines over Brookings, we're reminded what makes our community so special.

Brookings Municipal Utilities is proud to serve you. As a municipally owned utility, we care deeply about our community—and we reinvest right back into it.

While you enjoy your summer, BMU is working behind the scenes to keep your services reliable and worry-free, with rates set locally by your board.

Happy Summer!

Managed Wi-Fi

Tired of buffering, dead zones, and frustrating Wi-Fi drops? UPGRADE from a retail store router that struggles to keep up with today's connected homes.

At **Swiftel**, we believe you deserve a better Internet experience. Our **Managed Wi-Fi** service delivers strong coverage, reliable performance, built-in security, and expert **local support** for your home network.

Why Upgrade to Managed Wi-Fi?

With **Wi-Fi 6 technology** and optional mesh satellites, you'll enjoy **wall-to-wall coverage** and consistent performance throughout your home. **BUILT IN SECURITY** helps protect your devices from online threats. Swiftel's team can securely diagnose, update and help *optimize your network remotely* – often before you notice a slowdown.

In addition, you will experience the benefits of the new mobile app, Command IQ, to help bring the best personalized experience to your home or business possible.

BMU Scholarships: Supporting the Next Generation

Since the scholarship program was established in December 1991, Brookings Municipal Utilities has awarded approximately \$76,000 in scholarships. Each year, three \$1,000 scholarships are presented to graduating seniors from Brookings High School.

To qualify, students must meet criteria set by the BMU Board, including graduating from Brookings High School and pursuing higher education within South Dakota.

BMU is proud to invest in today's youth as a way to give back to the community and support future generations. We hope that after completing their education, these students will return to Brookings and continue to call it home.

Congratulations to this year's recipients!

Our Board Members are YOUR Neighbors!

Municipally owned means the board members who make decisions at BMU are your neighbors.

Tim Harvey (L)
Steve Meyer (R)

TIM HARVEY was recognized for his 20 years of service on the BMU board. As he steps away from the board, we extend our sincere gratitude for his dedication and valuable contributions to BMU. His commitment has made a lasting impact on the Brookings community.

Meet BMU's newest **Board Member, Van Fishback**. Van is a native to Brookings and has been involved in many professional and civic organizations.

We are excited to have Van on the BMU Utility Board as he continues to show up for the community of Brookings.

BMU Board Appointments

The Utility Board is composed of five (5) members. The Mayor appoints members of the Board, which appointments are approved by the City Council. Board members serve a five year term and appointments occur in May.
